## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments with respect to claim 1, 6-16 and 19 have been considered but are moot in view of the new ground(s) of rejection.

### ***Double Patenting***

Claim 1 and 22 provisionally rejected on the ground of nonstatutory double patenting over claim 1 and 19 of copending Application No. 10/712372. This is a provisional double patenting rejection since the conflicting claims have not yet been patented.

The subject matter claimed in the instant application is fully disclosed in the referenced copending application and would be covered by any patent granted on that copending application since the referenced copending application and the instant application are claiming common subject matter, as follows:

**Regarding Claim 1:** The current invention and the copending application No. 10/712372 have same claim limitation.

**Regarding Claim 22:** Claim 22 rejected for the same subject matter as claim 1, since the claim differences are "a recording apparatus as claim 1 and a recording method as claim 22 have similar future to the copending claims 1 and 19 respectively".

Furthermore, there is no apparent reason why applicant would be prevented from presenting claims corresponding to those of the instant application in the other copending application. See *In re Schneller*, 397 F.2d 350, 158 USPQ 210 (CCPA 1968). See also MPEP § 804.

Dependent claims 2, 6, 12-14, 23, 27 and 33-35 are object because the claims are depends from an independent claim reject as discussed above.
